HANDMADE CEMENT TILE

DIMENSIONS: 8x8 inches
DEPTH: 5/8ths inch
WEIGHT: 3 lbs.
TILES PER SF: 4.65
LEAD TIME TO SHIP: 4-6 weeks
(Large orders may have a longer leadtime)

Hand crafted with 100% natural materials, our cement tiles are suitable on the floor, on the wall, indoors and out. Traditional cement tiles should be sealed, and develop a desirable patina over time.

Made to last a lifetime, they are ideal for both residential and commercial projects. Tiles are completely recyclable, and are water-cured as opposed to fired.

Tiles are handmade to order, which means color can be customized to suit your space. Please see our 60-color palette for available custom options.

Our "eye of knowledge" tile is an ode to the ancient (lost) Royal Library of Alexandria, and all beloved libraries throughout the ages.

Featured palette: Gray, French Blue, Gold, Black, and White. We recommend ordering 10-15% overage to cover any chipping or cracking that may occur during shipment or installation. All tile orders will be rounded up into a multiple of 12 to ensure boxes are correctly packaged. Pricing does not include freight shipping from Mexico. Please contact us for a customized quote.

Installation and care guidelines: <https://growhousegrow.com/tile-installation-guidelines/>
