| GROW  | HANDMADE CEMENT TILE |

DIMENSIONS: 8x8 inches  
 DEPTH: 5/8ths inch  
 WEIGHT: 3 lbs.  
 TILES PER SF: 2.25  
 LEAD TIME TO SHIP: 4-6 weeks  
 (Large orders may have a longer leadtime)

Hand crafted with 100% natural materials, our cement tiles are suitable on the floor, on the wall, indoors and out. Traditional cement tiles should be sealed, and develop a desirable patina over time.

Made to last a lifetime, they are ideal for both residential and commercial projects. Tiles are completely recyclable, and are water-cured as opposed to fired.

Tiles are handmade to order, which means color can be customized to suit your space. Please see our 60-color palette for available custom options.

Inspired by intrepid botanist Ynes Mexia, whose wide-ranging fieldwork produced a catalog of thousands of rare plants from

Argentina to Alaska, while her relentless advocacy for preserving the redwoods contributed to the early national park movement and the founding of The Sierra Club.

Pricing does not include freight shipping from Mexico. Please contact us for a customized quote. We recommend ordering 15% overage to cover any chipping or cracking that might occur during shipment or installation. All tile orders will be rounded up into a multiple of 12 to ensure boxes are correctly packaged. Installation and care guidelines: <https://growhousegrow.com/cement-tile-installation-guidelines/>
